

INTERNAL (SIMULATION) ACCREDITATION VISIT
EVALUATION SHEET

Program : _____

College/Branch : _____

Date of Simulation : _____

Area/s Evaluated : _____

Level of Survey : Level IV Accreditation Visit

Visit : _____

IQAC FINDINGS & RECOMMENDATIONS
Area 1: INSTRUCTION -
Area 2: RESEARCH -
Area 3: EXTENSION AND COMMUNITY INVOLVEMENT -
Area 4: INTERNATIONALIZATION (LINKAGES AND CONSORTIA) -
Area 5: WELL-DEVELOPED PLANNING -
COMPLIANCE REPORT -
NARRATIVE PROFILE -
Reminders
1. Remember not to leave an item in your documentation/report blank. No parameter/benchmark statement should be left unanswered.
2. Photos/reports/evidence/proofs/exhibits should be clearly scanned. Avoid presenting blurred documents. Always make sure that your reports/proofs/evidence/exhibits are readable. If original documents are blurred, be sure that they are at the same time readable when magnified.
3. Avoid the use of repeated documents that are not necessarily essential/ required in each benchmark statement.
4. Avoid showing documents/evidence without brief descriptions about what is presented. In this manner, your accreditor/s will be guided and oriented about the documents being assessed.

5. Photos used need complete details when putting captions. This should include the title of the activity, the date when the activity was held, the persons involved, and a short description/story about the pictures exhibited.
6. For easier reference and presentation of documents, it is suggested to summarize data in a matrix before attaching evidence to your report/document. For ease of facility, summary schedules and matrices of reports are essential.
7. Photos, as much as possible, should only be used once, but not repeatedly. Might as well scatter them in your documentation for SIO.
8. The resolution of the photos used should be clear and vivid.
9. Be sure that all documents presented are signed by the proper authorities.
